

Villa Lale

Villa Lale's Entertainment

Some people do not want any distractions from the beauty of Orhaniye, but if you want to know what is available, here are the details:

DVD & TV

■ There is a DVD that plays European Region 2 DVDs, so you can play any favourite UK DVDs that you may bring with you. There is a selection of films in the villa.

■ There is satellite TV in the villa that should receive many Turkish channels.

MUSIC

■ There is a music centre in the villa that plays CDs and has a radio.

IPOD

■ There is an iPod docking station in the villa.

BUSINESS - GRADE INTERNET

■ There is fast broadband Internet in the villa. You can take your laptop and connect via WiFi in many areas around the villa, including the verandas. The network password is in the villa welcome book. This is a business-grade fast service with **UNLIMITED DOWNLOAD** so there is no problem if you are a heavy Internet user.

FREE UK LANDLINE CALLS

■ You can use the Internet (Skype) phone in the kitchen to make **FREE UNLIMITED** calls to any **UK LANDLINE**. It can also be used to make calls (not free) to any International telephone number. However we only charge if there is significant usage.

To call a UK number please use the full country code. For example to call 01629 734739 simply pick up the handset and dial **00 44 1629 734739**. For a Turkish number dial 00 90 before the Turkish number omitting the first zero.

On request we can also allocate a UK telephone number to this phone so callers from the UK ringing the villa only pay a local call rate to call you.
